**Vancouver, B.C. – August 9, 2021 – Playgon Games Inc. (TSX-V: DEAL / OTCQB: PLGNF/ Frankfurt: 7CR)** and/or its subsidiaries (“Playgon” or the “Company”), a SaaS technology company focused on delivering mobile live dealer technology to online gaming operators globally, is pleased to announce that an additional 7 operators are now live and offering Playgon’s proprietary Vegas Lounge live dealer platform to their players. Our live operators now totals 14 with a further 15 operators in the pipeline committed to offering Playgon’s live dealer product through previously announced aggregators.

“As the gaming industry continues to rapidly embrace digital transformation to help augment their land based business, iGaming will continue to experience exponential growth. We are experiencing considerable interest in our innovative mobile live dealer technology,” said Darcy Krogh, CEO of Playgon Games. “While the interest is great, the proof is always measured in the rapid adoption by operators that are willing to commit to offering Playgon’s technology. Doubling the number of live operators in our platform in the last six weeks is a milestone for our organization and a testament to the demand for our live dealer product offering and we expect to add and onboard operators over the course of this year, while at the same time focus on increasing user engagement on the platform.”
